58 INDEX

Liebe Kolleginnen und Kollegen,

wir freuen uns, Sie in Greifswald begrüßen zu dürfen. Unsere kleine, aber feine Stadt durfte bereits 2006 die erste Jahrestagung der DGEpi ausrichten. Nachdem wir uns in den letzten zwei Jahren nur online treffen konnten, freuen wir uns sehr, die 17. Jahrestagung vor Ort auszurichten zu können.

Seit der ersten Tagung hat sich sowohl in Greifswald als auch in der Epidemiologie vieles getan. Unsere Tagung findet auf dem Gelände der ehemaligen Universitätsklinik für Innere Medizin und Chirurgie statt. Längst gibt es, nur circa zwei Kilometer entfernt von hier, einen Klinikumsneubau auf dem Campus der Medizinischen und Mathematisch-Naturwissenschaftlichen Fakultäten. Die Community Medicine ist ein fest verankerter Forschungsschwerpunkt der Universitätsmedizin Greifswald. In vier Jahren wird mit dem William B. Kannel Center for Community Medicine ein Forschungsneubau nationaler Bedeutung fertiggestellt sein.

Ein Geheimnis des Erfolges ist, dass unsere Art zu forschen nicht einen Selbstzweck erfüllt. Vielmehr dienen die Erkenntnisse unserer Studien dazu, Gesundheitsvorsorge und -versorgung zu erneuern und zu optimieren und Entscheidungsprozesse im sozial- und gesundheitspolitischen Bereich mit validen Daten zu unterstützen. Mit dem Motto unserer diesjährigen Tagung „Sehen. Erkennen. Handeln!“ möchten wir dies unterstreichen und freuen uns auf interessante Vorträge, Poster und Diskussionen sowie auf ein persönliches Wiedersehen.

Genießen Sie Epidemiologie in unserer Stadt!

Beste Grüße
